

## Romain Waller joined the Ercom management team as Managing Director of the Cybersecurity BU

*Ercom, a French leader of secure voice and data communication solutions, announced today the arrival of Romain Waller as Managing Director of the Cybersecurity business to build on the growth momentum in France and abroad*

Romain graduated from Ecole Polytechnique and Ecole des Mines de Paris, and held several management positions with Sagem, Technicolor and Netgem. He was responsible for developing sales in France and abroad, and managing Business Units in the broadband sector (DSL modems and TV decoders) for customers of telecom operators, including supporting development and marketing efforts for TV as a service offerings.

His experience will enable Ercom to accelerate the transformation of its cybersecurity business model to SaaS, and support the growth of the Business Unit in France and abroad.

*"We are very pleased that Romain has agreed to join us to accelerate the transformation of our cybersecurity business. His experience, combined with his leadership and customer oriented culture will help us turn Ercom into a European market leader,"* explains **Yannick Dupuch, President and CEO of Ercom.**
